

play and study

F U N C E N T E R S

by **BERG FURNITURE**

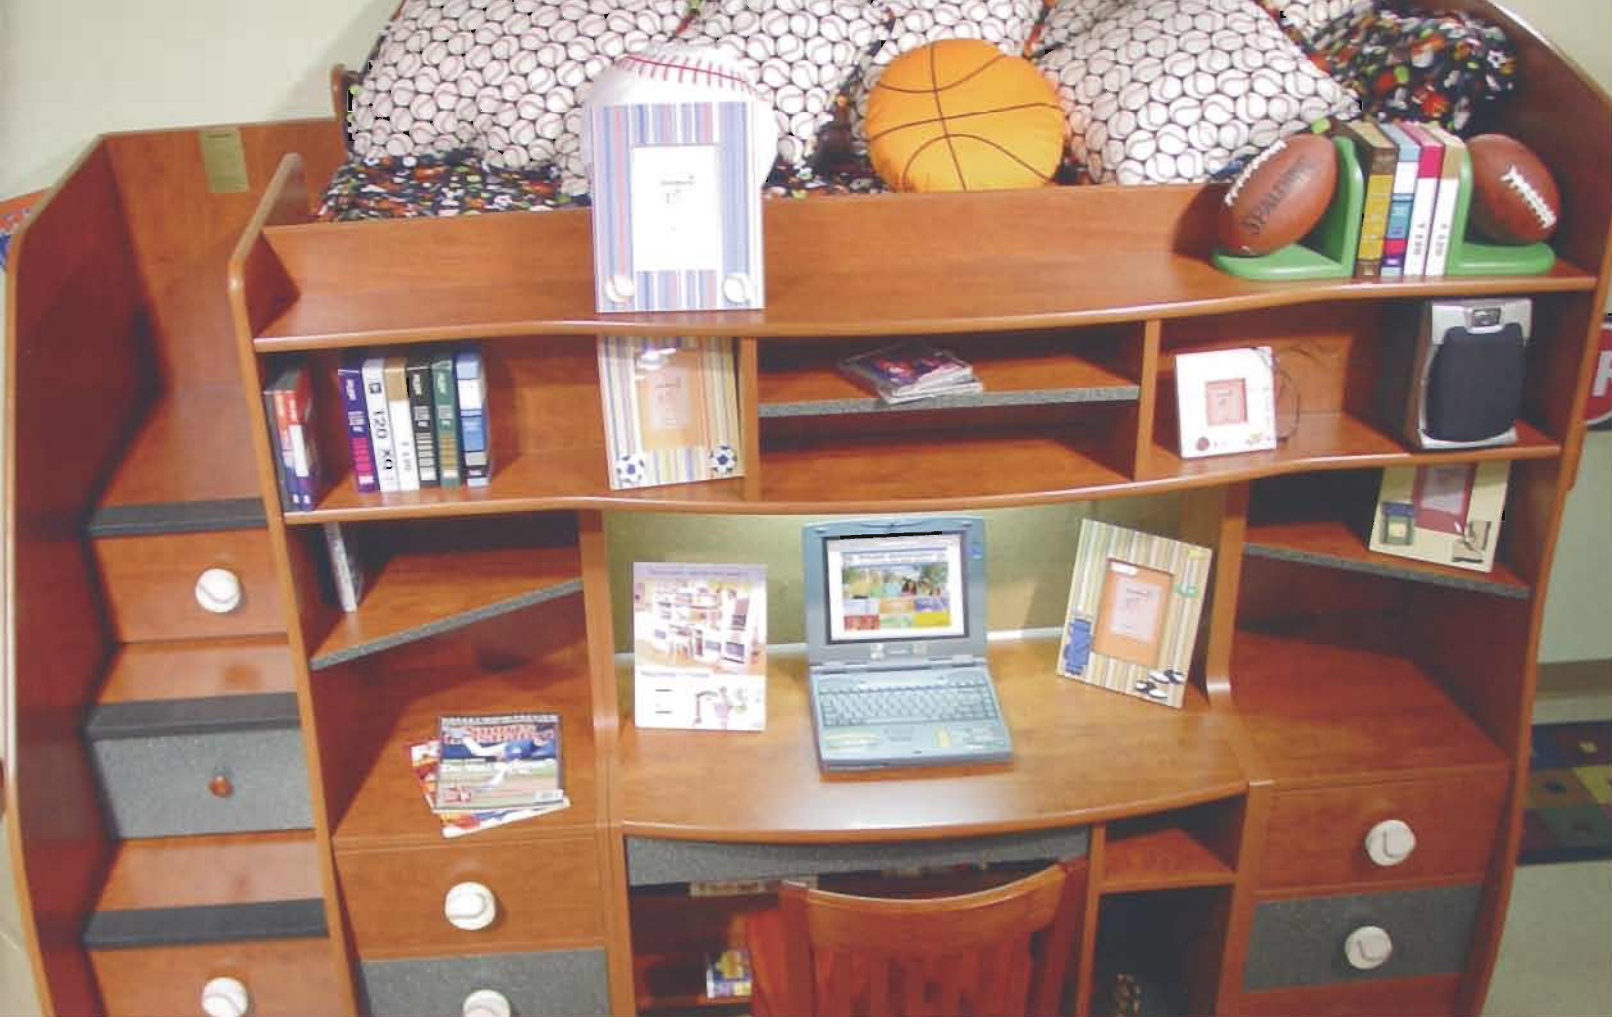

living and learning in one

Our Play and Study Fun Center is a truly innovative design, ideal for teens and tweens alike. It maximizes function using minimal floor space, combining practicality and fun in one.

Berg's Signature Staircase is a great feature. Replacing the old fashioned ladder, this innovative staircase with built-in drawers and shelves offers practical storage space. The non-slip tread, a wide and roomy stepping surface, along with the handrail allows quick and safe access to the top bed. The stairs can also be used for sitting during reading or any other family and friend get-together.

plenty of play and storage areas

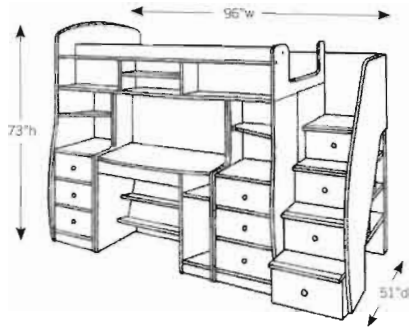

Whether for homework or having fun, computers are an integral part of kids' everyday lives. That's why every Play and Study Fun Center comes with a full-size computer desk, complete with pullout keyboard tray, fluorescent lighting, six-outlet surge protection unit, and phone jack. There's also plenty of space to store books, computer supplies, and other treasures.

Space underneath the bed makes for the perfect private play area. It could also be used for additional storage as the kids get older. Comes complete with a built-in fluorescent light and removable storage shelves.

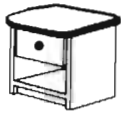

kids are special - make their rooms special, too!™
